

26 August 2014

IDOX plc

Additional Listing

Idox plc (the "Company") announces that 347,561 ordinary shares of 1 pence each ("Ordinary Shares") have been issued and allotted following an exercise of options by an employee and a former employee.

Application has been made to the London Stock Exchange for the Ordinary Shares, which will rank pari passu with the existing shares in issue, to be admitted to trading on AIM and admission is expected to become effective on 29 August 2014.

The Company's total issued share capital after the admission of the new Ordinary Shares will be 358,733,615 Ordinary Shares. The Company holds 2,355,219 Ordinary Shares in treasury. Therefore the total number of Ordinary Shares in issue excluding shares held in treasury is 356,378,396.

The above figure of 356,378,396 Ordinary Shares may be used by shareholders as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change to their interest in, the share capital of the Company under the FCA's Disclosure and Transparency Rules.

About Idox plc

Idox plc is a supplier of specialist document management collaboration solutions and services to the public sector and increasingly to highly regulated asset intensive industries around the world in the wider corporate sector.

Its Public Sector Software Division is the leading applications provider to UK local government for core functions relating to land, people and property, such as its market leading planning systems and election management software. Over 90% of UK local authorities are now customers. The Division provides public sector organisations with tools to manage information and knowledge, documents, content, business processes and workflow as well as connecting directly with the citizen via the web. It also supplies, predominantly to the public sector in the UK and internationally, decision support content such as grants and planning policy information as well as related specialist services, including election management solutions.

The Engineering Information Management Division delivers engineering document control, project collaboration and facility management applications to many leading companies in industries such as oil & gas, architecture and construction, mining, utilities, pharmaceuticals and transportation in North America and around the world.

The Group employs over 500 staff located in the UK, the USA, Europe, India and Australia.
